## QUALITY—HEALTH & SAFETY—ENVIRONMENT

Eurofast achieved its BS EN ISO 9001:2000 registration in October 2003. It also holds approved supplier status with major oil and gas companies, contractors and offshore production operators, as well as fabricators and process plant O.E.M.'s for the supply of quality and safety critical fasteners. Continued improvements and internal audits mean standards are maintained to the highest levels, ensuring products are delivered correctly and on time. A computer driven material control system offers full traceability and test certificates for all products.

The Lone Star PRD Group has, from its inception, pursued a policy of continual improvement through investment in plant and people. All Group Companies operate under the strict controls of BS EN ISO 9001:2000 and have documented Health, Safety and Environmental Policies.
